Financial reporting

The Board of Directors and the President and CEO have the overall responsibility for organising the internal control and risk management systems pertaining to financial reporting. The President and CEO, the members of the Group Management Team and the heads of the business units are

responsible for the accounting and administration of the areas within their spheres of responsibility complying with legislation, the Group's operating principles, and the guidelines and instructions issued by Oriola-KD

Corporation's Board of Directors. The organising and leading of the financial reporting in the Group has been centralized under the subordination of the CFO.

Oriola-KD Group follows the International Financial Reporting Standards (IFRS) approved for application within the European Union. Instructions and accountancy principles for financial reporting are collected in an accounting manual that is updated as soon as standards change, as well as in the financial department's instructions that are followed in all Group companies. Group Accounting is responsible for following and keeping up to date with financial statement standards, upholding the principles

concerning financial reporting and distributing information about these to the business

units.

Measurement and follow-up

The performance of the Group is monitored in the Group Management Team with monthly reports as well as in the monthly operational reviews of the business segments. The financial situation of the Group is also monitored in the meetings of the Board of Directors. The Audit Committee and the Board of Directors examine the interim reports and financial statements before their publication. Monitoring of the monthly reports also ensures the effectiveness of the internal supervision. Each business segment must ensure effective supervision of its own operations as part of Group-level internal supervision. The business segments and the Group Finance organisation are responsible for the evaluation of the processes covering financial reporting. The evaluations must contain balances and analyses, which are compared with budgets, assessments and various economic indicators.

Internal control

Internal control forms an essential part of the company's governance and management systems. It covers all of the Group's functions and organisational levels. The purpose of internal control is to ensure a sufficient certainty that the company will be able to carry out its strategy. Internal control is not a separate process but a procedural measure covering all Group-wide operating principles, guidelines and systems.

The purpose of Oriola-KD's internal supervision system is to support the implementation of the Group strategy and to ensure that rules and regulations are observed. The company's internal supervision is based on a Group structure, in which the Group's operations are organised into business segments and Group functions. Group functions issue Group-level guidelines laying down the operational framework and the persons responsible for the process. The guidelines cover such areas as accounting, reporting, financing, investments and business principles.

The guidelines aim to ensure that all risks connected to the achievement of the company's objectives can be identified and prevented. The control measures cover all Group levels and functions. All new instructions and guidelines are published on the company's internal website and staff members can provide feedback to the management and anonymously report any questionable activities through the company intranet.

Risk management

The purpose of risk management is to help the Group to achieve its objectives. The risks threatening the achievement of the objectives can only be managed if they are identified and assessed.

The Board of Directors of Oriola-KD Corporation approves the company's risk management policy in which the risk management operating model, principles, responsibilities and reporting are specified. The Board guides and supervises the planning and implementation of the risk management. The Board-appointed Audit Committee supervises risk management in the Group.

The President and CEO of Oriola-KD and the Group Management Team have the operative responsibility for risk management. Risk management and the principles governing risk management and their development, coordination and monitoring are the responsibility of the Risk Management Steering Group, which is chaired by the Group's CFO.

Oriola-KD's risk management policies are part of the Group's management and reporting process and its different components. The purpose of the policies is to ensure that risks that may threaten Oriola-KD's operations and the achievement of goals set can be comprehensively identified, assessed, managed and monitored throughout the Group. Risk management is an integral part of Oriola-KD's strategic process, governance and management system, decision-making, daily management, monitoring and reporting. Risk management is also a part of Oriola-KD's internal control system.

In its risk management system Oriola-KD classifies risks affecting its business to four different categories: strategic risks, operational risks, financial risks as well as health, safety and environmental (HSE) risks. The most significant strategic and operational risks recognised by the company have been described in the Report of the Board of Directors. The financial risks are described in Note no 23 to the Consolidated Financial Statements.

Internal audit

Oriola-KD doesn't have its own internal audit department. The internal audit function has been included in the duties of the finance function under supervision of the CFO. In addition to this Oriola-KD meets its internal audit requirements by assigning reporting and audit tasks to the company's auditing firm in accordance with an audit plan approved each year by the Audit Committee of the Board of Directors.

External audit

The company has one auditor, which must be a firm of authorised public accountants. The auditor is elected annually by the Annual General Meeting for a term that expires at the end of the next Annual General Meeting following the election. The task of the auditor is to audit the consolidated financial statements, the financial statements of the parent company, the accounting of the Group and the parent company and the administration of the parent company. The company's auditor submits the auditors' report to the shareholders in connection with the annual financial statements, as required by law, and submits regular reports on its observations to the Board's Audit Committee.
