Pharmaceutical Trade Russia
January-June 2012

- Pharmaceutical market grew by 20.4% (6.8%)* in rubles
- Retail
  - Pharmacies 235 (262) in Moscow
    - Stary Lekar 167 (189) and 03 Apteka 68 (73)
  - 5 pharmacies have been opened and 19 closed during 2012
  - The project to close down unprofitable pharmacies completed
    - During the years 2011 and 2012, a total of 56 pharmacies were closed down
  - The profitability of the retail business improved as a result of the growth in sales due to the actions to boost efficiency and the changes in pricing implemented in summer 2011
- Wholesale
  - The operating loss of the wholesale business decreased as a result of increased sales, increased efficiency of operations and improved delivery reliability
    - Net sales of the regional distribution centres increased by some 79%
    - During 2011 started sales to hospitals increased strongly
  - In 2012 the following projects have been initiated:
    - Implementation of the new warehouse management system at the start of 2013
    - Establishment of the new automated main logistics centre in Moscow at the beginning of 2014

*) The traded volume of average outstanding stock in the review period, excluding treasury shares
Oriola-KD has identified the following principal strategic and operational risks in its business:

- Growth in number of pharmacies outperforms growth in the market, leading to intense competition
- Competition for market share in pharmaceutical wholesale in a consolidating market
- Ensuring cost efficiency, flexibility and quality
- Development of processes and infrastructure required by strategic expansion
- Requirements and restrictions on pharmaceutical retail and wholesale imposed by the authorities, especially price regulation
- Commitment of key employees

The major financial risks for Oriola-KD involve currency rate, liquidity, interest rate and credit risks:

- Expansion of operations into new business areas and new markets has increased the financial risks
- Currency risks are the most significant financial risks in Russia and Sweden
  - Changes in the value of the Russian ruble or the Swedish crown will have an impact on Oriola-KD’s financial performance and equity

Goodwill and intangible rights are subject to impairment testing made at least once a year:

- Changes in cash flow forecasts based on strategic plans, or in the discount rate or perpetuity growth rate, can cause a goodwill write-down, which would weaken Oriola-KD’s profit
- Especially the impairment test of the goodwill of the Russian cash-generating units is more sensitive than before to changes in the discount rate or cash-flow forecasts

Near-term risks and uncertainty factors:

- A decrease in gross margin resulting from intense competition and an increase in credit risks concerning customers may have an impact on the profitability of the wholesale business in Russia
Outlook 2012
Market Development

- Oriola-KD’s outlook for 2012 is based on external market forecasts, agreements with pharmaceutical companies and pharmacies, and management assessments.

- In the period 2012-2016, the pharmaceutical market is expected to grow annually in average by 0.5 per cent in Finland, 1 per cent in Sweden, and 11.5 per cent in Russia, measured in local currencies (source: IMS Health 04/2012)
Oriola-KD´s outlook for 2012 unchanged:

- Oriola-KD’s net sales are expected to increase 10–15 per cent and operating profit excluding one-off items is expected to come to EUR 23–33 million in 2012.
Focus Areas in 2012

Wholesale

**Finland**
- Improving quality and efficiency
- Development of value added services for pharmacies and pharmaceutical companies

**Sweden**
- Development of new logistics services for pharmacy chains

**Russia**
- Increase of regional and hospital sales
- Implementation of the new warehouse management system at the start of 2013
- Establishment of the new automated main logistics centre in Moscow at the beginning of 2014

Retail

**Sweden**
- Opening some 15 new pharmacies
- Improving the competitiveness of individual pharmacies
- Purchasing
- Increase of traded goods and OTC assortment

**Russia**
- Development of pharmacy portfolio
- Improving the competitiveness of individual pharmacies
- Strengthening the product assortment
